UFOMAMMUT

Ecate

NR093 CD

"Ecate" is the seventh and latest album from Italian power trio, **Ufomammut**. Ecate is the ancient Greek goddess of the three worlds; The World of Humans, The World of the Gods and The World of the Dead. Throughout the centuries, her powerful figure has transformed in shape and meaning. As were many pagan deities, she came to be viewed as a negative entity associated with witchcraft and black magic by the Christian church.

Ufomammut's "Ecate" is composed of six separate tracks, each one is a representation of one of her many manifestations. This album is surely an evolution in terms of composition and song structure. "Ecate" takes the epic nature of their last Neurot release, "ORO", and distils it further into something more concise, aggressive, and yet as complex as the goddess, Ecate herself. Here the band continues to climb and further expand upon their previous works by infusing them into "Ecate", giving the past a new form. Just as the goddess presents herself in three different forms, so too the music moves between multiple levels of existence.

Ufomammut was formed in 1999 in Italy by Poia, Urlo and Vita. They are recognized worldwide as the creators of a unique brand of psychedelic sludge. With epic torrents of sound, droning vocals and a trance inducing miasma of textures, the band combines a monumental riffing attitude with the psychedelia of the more visionary Pink Floyd.

In 2014, Supernatural Cat (record label of Malleus Rock Art lab, artistic collective featuring Urlo and Poia with Lu) released XV, a visual journey to celebrate 15 years of **Ufomammut**. . The dvd includes over three hours of live footage — including Magickal Mastery Live, a 12 song live act — interviews, outtakes, and extras all documenting these first fifteen years of the band.

UFOMAMMUT's status as one of the most potent, powerful and artistic contemporary doom artists in existence continues to captivate the masses, and the band's worldwide grasp grows wider with each release.
